4. Participation, registration, format and entry fee

The competitions are open to all players.

Register by email at juhatus@kabeliit.ee. Registration deadline: **1 November 2026**.

Both rapid tournaments will normally use the Swiss system with 7–9 rounds, depending on the number of participants. The Chief Arbiter may change the tournament system, number of rounds or time control according to the number of participants and organisational requirements.

The entry fee is €10 per player for each tournament. 50% of the entry fees will form a cash prize fund for the top three players in the combined two-day standings. This fund will be distributed as follows: 1st place – 50%, 2nd place – 30%, 3rd place – 20%.

5. Ranking and tie-breaks

Players will be ranked by the points scored in the tournament. Ties will be resolved using the FMJD Swiss coefficient.

6. Combined two-day standings

Separate combined standings will be calculated from the results of both tournaments. Each player's combined score is the sum of the placing points earned on the two days.

On each day, 1st place earns 20 points, 2nd place 18 points and 3rd place 16 points. From 4th place onwards, the score decreases by one point per place. Players finishing 18th or lower each receive 1 point. No participant receives zero placing points.

Place	Points	Place	Points	Place	Points
